

LEGO Robotics Camp at Rock Hill PM

This four hour camp will include building a small LEGO robot each day to program and complete a challenge. Campers will be provided access to a LEGO EV3 and educational kit to build the robots each day. Building plans will be provided each day. There will be two sessions each day, the morning session will be from 8:00AM until NOON, and the afternoon session will be from 1:00PM to 5:00PM. Each session will have several different robot builds available including some new plans for summer 2025. You are welcome to sign up for each session but you will be required to pick up your camper at NOON and leave the building.

With the new condensed time for the camps we will not break for lunches during the morning session. Campers are always welcome to bring snacks and drinks but NO FOOD OR DRINK will be available at the school. Campers will need their school log-in to access the building plans each day. Each session (morning and afternoon) will cost \$192.00. You will have to choose morning or afternoon when signing up and paying. Please note, this is NOT A FULL DAY camp like in the past. There will ONLY BE TWO WEEKS OF LEGO camps this summer but we have expanded the size to accommodate more sign ups. If you are trying to sign up but the system has closed please email me at DRBERLINER@prosper-isd.net. More information will be sent out before each camp starts.
