

Space Camp Grades 2-5 Afternoon

"Space Camp (4 HOUR SESSIONS) This four hour camp will be learning about space with fun activities each day. Campers will learn about the people behind the United States getting to the moon, the Saturn V rocket that carried the astronauts to the moon, space and the planets, and NASA's current Artemis project. Each day we will have a sketch and color activity, brief history or future lesson and a fun space activity. This is a different camp than the robotics camp. This will be a four hour camp offered from 8am to noon for the morning session, 1pm to 5pm for the afternoon session. There will ONLY BE ONE WEEK of camp this year.

Please note, this is NOT A FULL DAY camp like in the past. There will only be one morning and one afternoon space camp this summer. If you are trying to sign up but the system has closed please email me at DRBERLINER@prosper-isd.net. More information will be sent out before each camp starts. "
